The Community Partnership on Aging Safe at Home Program allows eligible older adults in the CPA member-communities to have safety equipment such as a shower grab bar installed in their home for minimal or no cost. Falls among older adults are a leading cause of injury and are among the most costly, at more than \$4 billion per year. To date we have installed safety equipment in the homes of more than 20 older adults. Your support will ensure CPA's ability to assist even more in the 2014-2015 year.

**Tickets available in September
